

### ***Hot Shot Yacht Rot***

OMG I'm so tired of this freaking yacht!  
We're at sea six weeks now and I'm gonna go nuts.  
Yeah, some crew tested positive, but you know what?  
I don't give a crap. They need to get off their butts!

But the main thing is that we can't come into port.  
Word got out that COVID was all over my boat.  
So my booze drugs and food are all getting real short  
And it takes more than water to keep her afloat!

My only escape from this hundred-foot "cell"  
Was diving, but then the compressor shut down.  
The news says this virus is giving everyone hell.  
WTF, IDC, I gotta do stuff in town.

So I'm done with this tub. My chopper! Thar she blows!  
I'll be back at my penthouse before restaurants close.

Gonna call in my chopper.  
My Miami penthouse isn't such a long hopper.

There's the wind from my chopper.  
My chopper's on its way.  
Chopper's on the poop deck.
