

Weird and Scary Stuff in Second Grade

We had lots of fun at school one day.
The teacher picked our group to read scary stuff.
Recess was awesome. They just let us play!
We made up a game where we floated like fluff.

But then Jimmy fell down when he floated too dumb
And scraped up one knee, and blood ran when he walked.
Then we went back inside and ate lunch. Then at one,
The Principal came on the speaker and talked.

She said there was this weird disease all around
Like a cold, but much worse, because some people died!
So for us to be safe, they were closing school down.
But that we will still learn stuff at home if we tried.

So now I'm just home and I miss all my friends.
And for this scary stuff, no one knows when it ends.
